## BOTTLED WATER PUMP

### TPK-T

Model TPK-T is the convenient way to enjoy the good taste and quality of bottled water in your refrigerators automatic ice maker and chilled water dispenser, automatic coffee brewer, kitchen sink, water dispenser, etc.

It is a demand-type electric diaphragm pump that transfers bottled water from a non-pressured source to the appliance. The flow rate is one gallon per minute. Self-priming. Purge tank design. Ultra quiet.

Typical water sources are a 5-gallon bottle, 2.5 gallon Handi-Tap container, Oasis® series water coolers and non-refrigerated dispensers, see Bottled Water cooler Chart on back.
