

# OASIS BOTTLE FILLER BROCHURE

**FILL  
IT UP**

Refill  
Reduce  
Refresh

Do something good for the environment

## **MAKE YOUR FACILITY GREEN**

by reducing the cost and waste associated with disposable plastic water bottles and provide great-tasting filtered water on-demand.

# REFILL.

# REDUCE.

## VersaFiller® Bottle Filler RetroFit Kit

PWEBF

- Antimicrobial components are infused with FRESHIELD® to help fight against degradation and the growth of bacteria
- Self draining design does not require additional plumbing into the wall
- Optional adaptor gasket allows the bottle filler to install onto today's most common water coolers

### PWSBF

- Mechanical activation works without electricity, giving you refreshing water even during power outages

### PWEBF

- Electronic sensor for touch-free activation
- Built in bottle counter reminds you of the global impact of each refill
- Built in LED monitor reminds you when filters need changed
- Programmable shut off features allows you to select how much water is used with each activation

PWSBF

## VersaCooler® II with Electronic/Mechanical VersaFiller

PG8EBF

- Antimicrobial copper touchpoints kill most bacteria and viruses left behind
- Antimicrobial water saver bubbler prohibits the growth of bacteria while conserving water usage and reducing waste
- Water cooler offers mechanical activation, doesn't require electricity and works during power outages
- Galvanized metal frame, powder coated steel panels and a stainless steel top for durability and corrosion resistance
- Comes with a PWSBF or PWEBF listed above

Also available in stainless steel finish and copper surfaces

PG8SBF

## Bi Level VersaCooler II with Electronic/Mechanical VersaFiller

PG8EBFSL

- Main features of the VersaCooler II with Electronic/Mechanical VersaFiller above
- Comes with a PWSBF or PWEBF listed above
- Plus the universal bi-level design can be installed with either side high or low, resulting in one unit to install, one unit to stock

Also available in stainless steel finish and copper surfaces

PG8SBFSL

# REFRESH.

## Recessed Electronic/Mechanical AquaPointe® Bottle Filler

MW8EBF

- Antimicrobial components are infused with FRESHIELD to help fight against degradation and the growth of bacteria
- Recessed design does not consume floor space
- Stainless steel finish with locking louvered panel for access to the chiller and filters
- Comes with electronic or mechanical bottle filler
- For dual frame: Fountain can be installed on either right or left

Also available in electronic (touch-free) or mechanical button, single frame or dual frame

M8SBF

## ADA Fountain with Intergrated Bottle Filler

M8WREBF

- Vandal resistant push button holds up to tough environments
- Antimicrobial components are infused with FRESHIELD to help fight against degradation and the growth of bacteria
- Water saver flex bubbler conserves water and reduces waste
- Stainless steel with locking louvered panel for access to the chiller and filter
- Comes with integrated mechanical or electronic bottle filter
- For dual frame: Fountain can be installed on either right or left

Also available in electronic (touch-free) or mechanical button, single frame or dual frame

## Non Refrigerated, Surface Mounted Electronic/Mechanical Bottle Filler

PWSMEBF

- Antimicrobial components are infused with FRESHIELD to help fight against degradation and the growth of bacteria
- Internal metal frame can mount to almost any surface
- Stainless steel is easy to maintain and resists corrosion
- Built in drain

### PWSMSBF

- Mechanical activation works without electricity, giving you refreshing water even during power outages

### PWSMEBF

- Electronic sensor for touch-free activation
- Built in bottle counter reminds you of the global impact of each refill
- Built in LED monitor reminds you when filters need changed
- Programmable shut off features allows you to select how much water is used with each activation

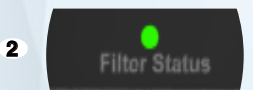

PWSMSBF

1

Bottle counter shows how many bottles were saved from going to the land fill

2

Filter monitor: Status of filter indicates when it is time to change the filter

3

Touch-free activation

4

Mechanical Push Button

5

No splash drip tray

Significantly more water and energy efficient

Components in this fountain are lead free as defined by the Safe Drinking Water Act Amendments of 1986, and the Lead Contamination Control Act of 1988

ADA Compliant when properly installed

Product Certified to NSF/ANSI Standard 61-G & 372 (weighted average lead content of  $\leq 0.25\%$ ) and in compliance with California's Health & Safety Code Section 116875 (commonly known as AB1953)

Key bottle filler molded components contain Freshield®, which utilizes a silver-based antimicrobial compound that reduces the growth of micro-organisms and mildew to protect the surfaces from discoloration, odors and degradation.

MD-CU<sub>29</sub> is an EPA registered antimicrobial copper that fights off microorganisms which include MRSA and e-coli.
