

We Know Water.

FREE STANDING CONTACTLESS OUTDOOR QUASAR® BOTTLE FILLER

Introducing the first OASIS indoor/outdoor rated freestanding bottle filler.

The OASIS QUASAR UV-C Water Treatment system treats water at the point of dispense using UV-C LEDs to protect people from harmful pathogens found in drinking water. UV-C LED also cycles on periodically to keep the dispense point sanitized between dispenses.

Evaporator is high efficiency tank type and shall be encapsulated in insulation. An adjustable thermostat having an off position will control refrigeration system.

- Contactless QUASAR bottle filler with mercury-free UV-C LED at the dispense point
- Built-in strainer inside solenoid valve prevents particles in waterway
- Waterways are lead-free in materials & construction
- High efficiency cooling system
- Contactless activation for water dispensing with programmable auto shut-off
- High flow output of 1.1 gallons per minute for faster fill up
- Built in drain - no drip tray to empty
- Removable front panel for ease of filter change-out (not included)
- Covered sensor reduces false activation from safety vests or other reflective surfaces
- Easy to wash, removable MERV 3 air filter
- Built-in water filter monitor and bottle counter

UV-C LED Treatment at the point-of dispense

Optional Filter

- VersaFilter III is Certified to NSF/ANSI 42 and 53 for lead, cyst, Particulate Class I, chlorine, taste and odor reduction to 4,750 gallons (not rated for outdoor use)
