

OASIS

h₂ome

COUNTERTOP BOTTLED WATER COOLER

Special Features

- Child Lock
- Timer Setup
- On demand water heater to reduce power consumption
- “Extra hot” water setting
- Thermoelectric cooling technology
- Air Purification

OASIS's **h₂ome** is a compact unit with an intuitive display. It dispenses hot, extra hot and cold water, making it an ideal appliance for your home countertop.

The child lock feature prevents the accidental dispensing of hot water, while the removable drip tray makes maintenance at home a simple task.

The instant hot & thermoelectric cooling enabled **h₂ome** is designed for your convenience.

This energy efficient unit purifies the air around the cooler guaranteeing satisfaction with every drink.
