

# Eco-friendly water filtration solution

Improve the taste and quality of your drinking water with OASIS green filter system.

- Compatible with most POU units, coffee machines and other drinking water appliances
- · Interchangeable filter media
- Simple installation
- Easy maintenance with filter changes every 6 months
- Two filter housing designs for a perfect fit in any environment
- Cleaning Cartridge

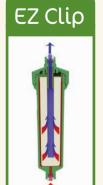

Replace filter media with sanitizing solution to create a cleaning cartridge that can be used to sanitize all water contact surfaces inside your POU machine.

• Optional: Flow monitor

Battery powered flow monitor automatically indicates when your filter media need to be replaced.

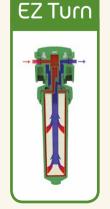

## ECO-**FRIENDLY ECONOMICAL** CLEAN. HEALTHY & TASTY **WATER EASY TO INSTALL & MAINTAIN**

#### In-line green filter

Connected to flexible water tubing with a simple push-into-place fitting at the top and bottom of the filter. The filter body is secured to the wall by pushing it into a C-Clip. Ideal in situations where simplicity and space are a priority.

### Quarter-turn green filter

Connected to flexible water tubing with a simple push-into-place fitting at the water entry and exit valves in the head of the filter. A no-spill valve allows to disconnect the filter body from the filter head without spilling any water.

CUSTOMIZABLE

OUTSIDE-IN
filtration for a
maximum filtration
efficiency + a minimal
drop in pressure
+ no risk of
blockage

#### Eco-friendly water filtration solution

#### Range of filter media & filter performance

#### sediment

100% polypropylene microfibers. Removes sediments and improves the texture, taste and clarity of your water. Dirt holding capacity: 60 gr.

#### carbon\*

Activated carbon block filter. Removes chlorine, taste & odor (CTO) and fine particulates from cold water. Capacity - 3,800 Lt.

Activated carbon block filter. Removes CTO, fine particulates and lead from cold water. Silver acts as a bactericide.

Capacity - 3,800 Lt.

Silver impregnated ceramic micro filter that removes bacteria and cysts. Capacity - 10,000 Lt.

#### galaxi\*

Combines activated carbon with a cellulose-free synthetic fiber matrix. Performs as a sediment filter and a carbon block in a single cartridge. Removes CTO, has dirt-holding capacity with a reduced risk of blocking, prevents carbon fines from being released into the water stream, reduces lead, cysts, contains bacteriostatic properties. Capacity - 11,400 Lt.

#### remedi\*

Pleated filter media infused with Powdered Activated Carbon (PAC) further enhanced with nano-technology utilizing the principle of electro-adhesion capable of removing a wide range of water borne contaminants. Removes CTO, pharmaceutical and chemical waste, heavy metals (copper, iron, lead, tin), cysts, viruses, and bacteria. Capacity: for lead - 1,230 Lt, for CTO - 10,598 Lt, for Pharmaceutical and Chemical - 756,400 Lt.

#### remedi

Filters marked with "\*" are available with phosphate additive to reduce scale. Quantities per box: 66 for the media, 25 for the EZ Turn complete system, 25 for the EZ Clip complete system.

#### Filter performance

Media type	Micron rating [μ]	СТО	Scale reduction	Lead reduction	Sediment, rust, sand, stones, particles removal	Improves Taste & Odour	Cyst reduction	Bacteriostatic properties	Removes viruses, bacteria, micro- organisms	Pharmaceutical & chemical waste removal
