

Converting Bottle Coolers to POU units.

TECHNICAL BULLETIN

OAS0047A

OASIS has introduced a range of conversion kits that enable customers to convert their bottle coolers into POU machines.

Each kit contains a double-float system to control water supply to the water cooler and all necessary fittings required to install the system.

Following kits are available:

Kit Number	Cooler Types		Colour
037324P001	B1RR, B1AR, B1DR	RR, rfx, Indigo	WHITE
