

RR SANITISATION KIT.

Technology

OASIS' RR SANITISATION KIT is the sustainable and efficient choice of cooler system.

The easy to dismantle and install parts of the RR Sanitisation Kit are compatible with all 30+ different OASIS RR models (both Bottle and Mains-Fed).

Rather than returning the cooler to your premises or spending a long time sanitising the cooler on site, with OASIS all you need is two minutes at your customer's location.

With pre-sanitised interchangeable parts, their replacement could not be made simpler. This eco-friendly re-usable kit is dishwasher safe - with temperature and cleaning agent resistant materials.

FEATURES

- Ease of sanitisation
- Unique patented system
- Inside-Out Chilling System
- Interchangeable parts
- Dishwasher safe.
- Components :
