

AQUAPOINTE PN8EBFY

Refrigerated Bottle Filler

No more Bubbler! AquaPointe PN8EBFY is a retrofit replacement for your wall-mount drinking fountain.

AquaPointe PN8EBFY is a surface mount unit that delivers chilled drinking water. This refrigerated bottle filler is perfect for those high traffic areas. With a contactless, touch-free activation - there are no fears of cross-contamination.

Replace your existing drinking fountain and abandon the bubbler! AquaPointe PN8EBFY used the same rough-in opening, piping and electrical system already in place - making this retrofit quick and easy!

The bottle counter tracks how many times the unit has been used and promotes refilling of sports bottles.

Key bottle filler moulded components shall contain Freshield, which utilises a silver-based antimicrobial compound that reduces the growth of micro-organisms and mildew to protect the surfaces from discolouration, odours and degradation. Basin is designed to eliminate splashing and standing water.

The cooling system uses R-134a or R-290a refrigerant.

	CHILLED PN8EBFY
MODEL CODE	
ACTIVATION	Contactless (Infrared sensor)
SENSOR COVERAGE	Up to 5cm (approx.)
FILTRATION	OASIS Green Filter (optional), built-in 100 micron strainer
FLOW RATE	4.2 LPM
DRAINAGE TYPE	Built-In Drain, Removable drip-tray
EXTERIOR	Antimicrobial ABS Plastic, Brushed Stainless Steel
CHASSIS	Heavy duty galvanised steel
DIMENSIONS	323(D) x 455(W) x 935(H) [mm]
ALCOVE HEIGHT	265 mm
NET WEIGHT	25.4 kg
INPUT POWER	220-240V, 50/60 Hz
COOLING PERFORMANCE	60LPH (Below 10°C , 32°C Ambient, 27°C Inlet water)
TOTAL CURRENT	0.1 A
POWER CONS.	7 W
COUNTRY OF ORIGIN	Mexico
CERTIFICATIONS	CE (LVD, EMC, RoHS), WRAS
WARRANTY	1 Year
