

## Portable Outdoor Bottle Filler Now Available

OASIS freestanding bottle fillers deliver unmatched durability, mechanical reliability, and safety-focused design—engineered specifically for the demands of active construction environments.

- ✔ Mechanical, job-site ready design with reliable foot-pedal activation
- ✔ Proven durability built with stainless steel construction, built to withstand demanding, high-traffic job-site environments
- ✔ Integrated drain eliminates standing water and muddy hazards, no drip tray to maintain
- ✔ High-performance hydration dispensing 1.1 GPM flow with 10 GPH chilled water capacity
- ✔ Supports direct water line connection or use with a 5-gallon reusable water jug for accessible hydration anywhere

Ready for any job site with brackets to attach to pallets for easy transport

### Featuring QUASAR™

Available on select models, QUASAR delivers chemical-free, point-of-dispense UV-C LED disinfection. Pair it with the OASIS outdoor-rated filter—the only filter in the industry tested and certified to IAPMO IGC 441—to deliver the safest drinking water possible on your job site.

#### **PFCPD10EBQ, SKU: 507708**
