

Sustainable Corporate Hydration

Bottle Fillers, Pressure Coolers & Fountains

SUSTAINABLE HYDRATION

Sustainability goals are a fact of corporate life, as companies strive to become better stewards of the environment and its precious resources. There are major financial incentives, too. Thoughtful, judicious use of utilities is almost always a significant part of these goals, but water often gets the short shrift.

Water efficiency credits are necessary for LEED (Leadership in Energy and Environmental Design) certification, and water is also vital to virtually every business as necessary fuel for your workforce. Well-hydrated employees are more productive. They are more focused, suffer less fatigue, and get more done. Poor hydration, suffered by half of American workers, can cause energy-sapping symptoms like headaches and dizziness and can send productivity plummeting.

Proper hydration matters for your workforce. So an investment in plentiful fresh drinking water is an investment in your bottom line.

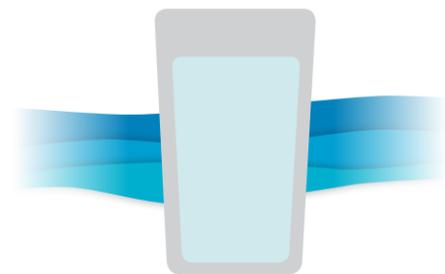

SUSTAINABILITY PAYS

Manage your risk. Risk-related sustainability issues *can affect as much as 70 percent of earnings* before interest, taxes, depreciation, and amortization.* Thoughtful water usage plays a critical role in meeting sustainability goals.

*Global management consultants McKinsey & Company

OASIS® DIDN'T JUST HOP ON THE GREEN BANDWAGON. WE'VE BEEN LEADERS IN ENVIRONMENTALLY RESPONSIBLE PRACTICES SINCE OUR START **MORE THAN 100 YEARS AGO.**

At only a fraction of a cent per serving, OASIS water systems are the **LOWEST-COST** amenity you can give to workers.

Water conservation efforts are a significant factor in achieving LEED (Leadership in Energy and Environmental Design) status.

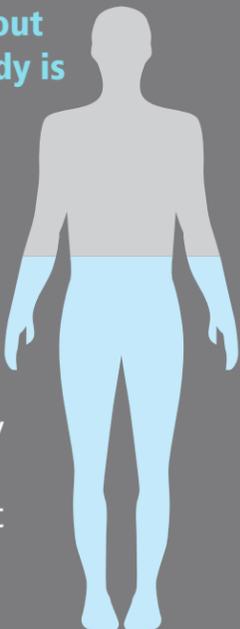

Thermoelectric cooling (TEC) on OASIS units is a green alternative to hydrofluorocarbon (HFC) refrigerant. TEC units use only DC power and have no moving parts or complex assemblies.

WE ARE MOSTLY WATER

The human brain is about **70% water** and the body is approximately **60%**.

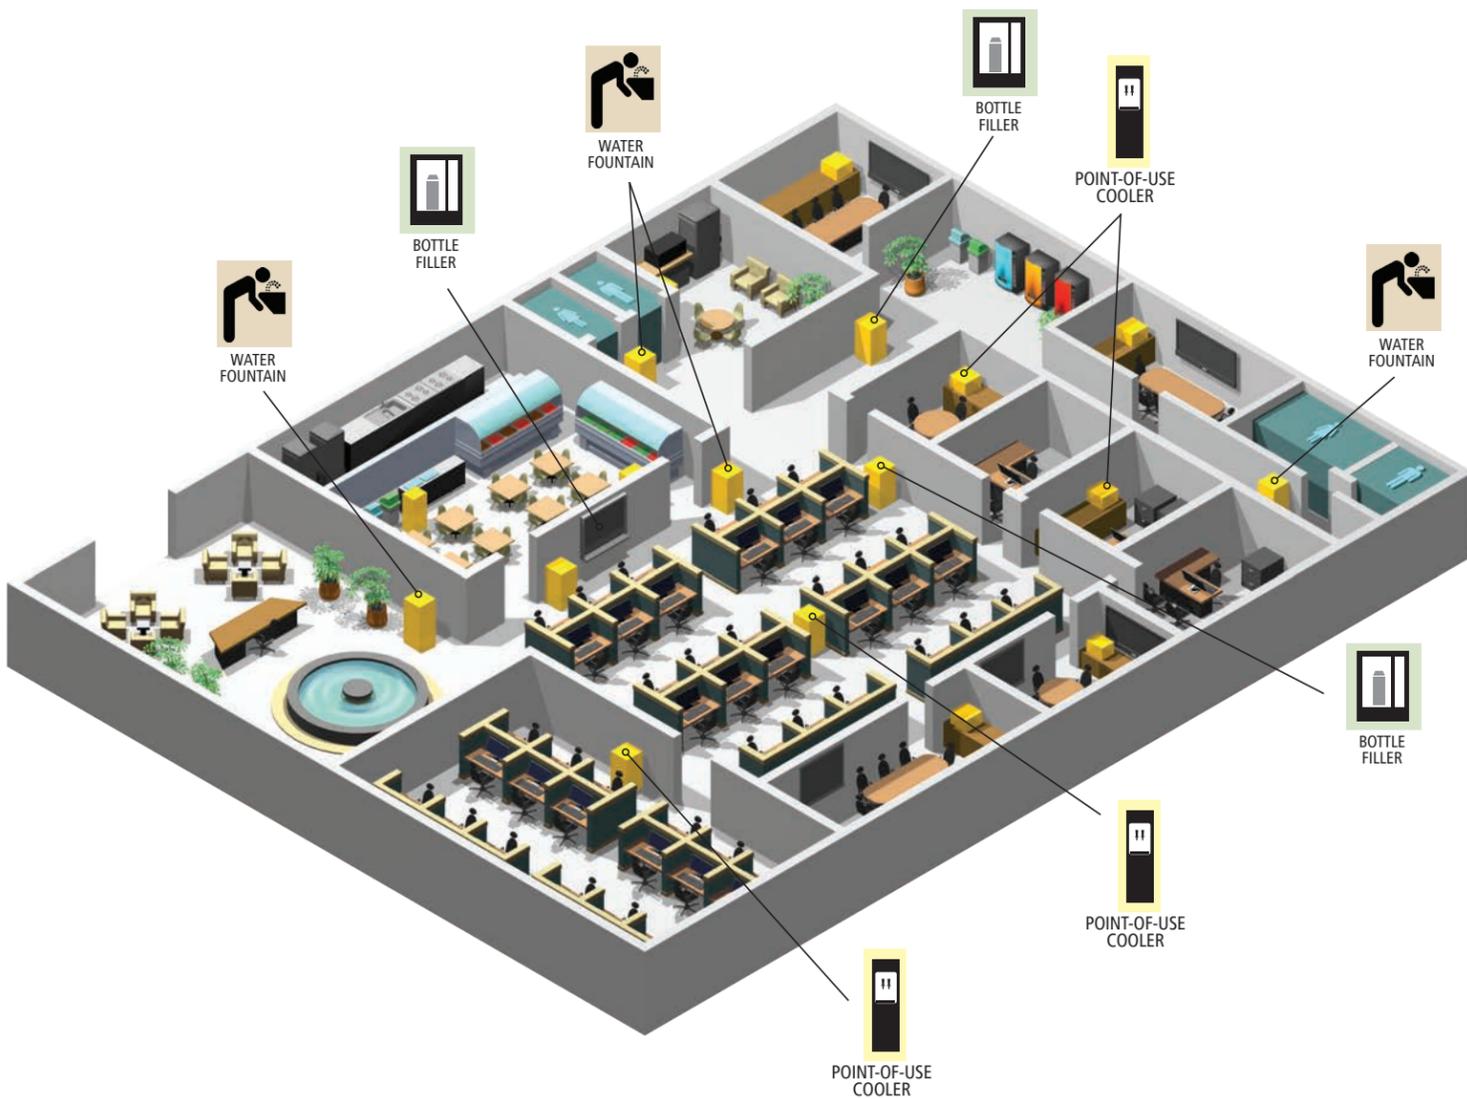

This is why adequate hydration is so important throughout the workday. Whether your brain is thinking or your body is laboring, water is the ultimate lubricant for success.

TOTAL FACILITY ANALYSIS

We offer a holistic, 360-degree review of your facilities that tells you precisely where and how water needs to be available. Our experts look at your entire corporate campus and other places where employees work, including in the field.

We make individualized recommendations based on usage, floor plan, traffic density, availability of plumbing and electricity, and more. The end result is a plan that makes the most efficient use of available space and resources.

WHEREVER THEY MAY ROAM ... OASIS IS THERE. TODAY'S WORKERS AREN'T TIED TO THE OFFICE ANYMORE.

Company Gym

Bottle fillers are a must. We have retrofits that easily convert virtually any existing drinking fountain into an OASIS Drinking Fountain with Bottle Filler. If access to plumbing lines is a problem, we have a variety of bottle cooler options that also accommodate today's taller sports bottles.

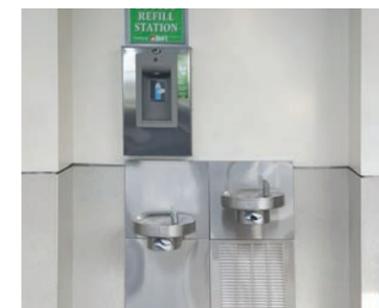

Remote Job Site

Don't forget about employees who work at remote job sites or deep in manufacturing or warehouses. These workers are the engine of your organization. Hydration-on-location makes life easier in work trailers or other remote areas.

Solutions for the Transportation Industry

Does your corporate space double as a customer space, as is the case for airports, bus depots, and train terminals? Pleasing customers means treating hydration as a necessity, NOT an amenity. And to be sure, the quality of your drinking water options reflects on your brand. Especially with restrictions on liquids that prompt many people to travel with empty bottles that need to be filled after clearing security.

Also, each terminal or gate should have at least one fountain that requires no electricity. Only OASIS® has every bottle filler configuration available with mechanical or electronic activation.

The need for versatile hydration solutions continues to evolve. Bottle fillers are increasingly popular as more people bring their own water bottles on the go. Once just a must for business travelers, water bottles are now omnipresent in every aspect of working life. All those bottles need to be filled, regularly. The manufacturing excellence of OASIS provides clean, safe drinking water you can take with you.

ELECTRONIC VERSAFILLER® BOTTLE FILLERS AND VERSACOOLER® II

BARRIER-FREE VERSACOOLER II/ELECTRONIC BOTTLE FILLER COMBO

Standard Features

- Fountain with integrated, hands-free bottle filler with programmable shut-off timer
- Integrated bottle counter and filter monitor
- Four antimicrobial copper push pads
- VersaFilter® for better-tasting water with reduced odor, cyst, lead, and chlorine content (on PGF8EBF STN and PGFEFB STN only)
- 100-micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials and construction
- Stainless steel top and frame
- High-efficiency cooling system and refrigerant R-134a
- Antimicrobial, flexible, one-piece water-saver bubbler; external stream-height adjustment

FRESHIELD® IS A SILVER-BASED ANTIMICROBIAL COMPOUND THAT PROTECTS THE SURFACES FROM DISCOLORATION, ODORS, AND DEGRADATION CAUSED BY THE GROWTH OF MICROORGANISMS AND MILDEW. .

ELECTRONIC VERSAFILLER® BOTTLE FILLERS

RETROFIT – ADAPTS TO ALL EXISTING PG8AC/P8AM UNITS

Standard Features

- Adapter gasket allows the bottle filler to install onto today's most common water coolers
- Molded components are infused with FRESHIELD® to help fight degradation caused by the growth of bacteria
- Self-draining design does not require additional plumbing into the wall
- VersaFiller: Electronic sensor for touch-free activation
- Integrated back-lit bottle counter reminds you of the global impact of each refill
- Built-in LED monitor reminds you when filters need to be changed
- Programmable shut-off feature allows you to select how much water is used with each activation
- Waterways are lead-free in materials and construction
- Surface-mount frame assembly

Model	50° F Drinking Water/90° F Ambient Air Temp			Hot N' Cold Model	115 Volts, 60HZ			Auto-Off Water Flow	Cabinet Color Option	Net Wt. Approx
	Rated Capacity GPH	Base Rate GPH	Pre-Cooler		Compr. HP	Full Load Amps	Rated Watts			
PWEBF	0	0	No	No		.20	11	Yes		15 lbs

*Also available with mechanical activation (PWSBF).

INDEPENDENT SURFACE MOUNT, SPACE SAVER (NON-REFRIGERATED)

Standard Features

- Slim and space-saving design
- Molded components are infused with FRESHIELD® to help fight degradation caused by the growth of bacteria
- Built-in 100-micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials and construction
- Heavy-duty steel frame
- Hands-free bottle filler with 20-second shut-off, integrated counter and filter monitor
- Built-in drain – NO drip tray to empty
- Also available with optional R8 chiller

Model	50° F Drinking Water/90° F Ambient Air Temp			Hot N' Cold Model	115 Volts, 60HZ			Auto-Off Water Flow	Cabinet Color Option	Net Wt. Approx
	Rated Capacity GPH	Base Rate GPH	Pre-Cooler		Compr. HP	Full Load Amps	Rated Watts			
PWSMEBF	0	0	No	No		.20	11	Yes	No	15 lbs

*Also available with mechanical activation (PWSMSBF).

MECHANICAL AQUA POINTE® SPORTS BOTTLE FILLER

Mechanical Activation

Hydration assured during power outages! All products on pages 8-9 feature mechanical activation. Only OASIS® has EVERY bottle filler configuration available as mechanical or electronic activation. Works without electricity!

MECHANICAL BOTTLE FILLER/RADII FOUNTAIN

Standard Features

- Molded components contain FRESHIELD®, which utilizes a silver-based antimicrobial that reduces the growth of microorganisms and mildew to protect the surfaces from discoloration, odors, and degradation
- Built-in 100-micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials and construction
- Flexible one-piece antimicrobial water-saver bubbler
- High-efficiency cooling system
- External stream-height adjustment on lower unit
- Mechanically activated push button
- Filtration system for taste, odor, and chlorine reduction

Model	50° F Drinking Water/90° F Ambient Air Temp		115 Volts, 60HZ			Cabinet Color Option*	Net Wt. Approx
	Rated Capacity GPH	Base Rate GPH	Compr. HP	Full Load Amps	Rated Watts		
MGSBF	No Chiller					Yes	92 lbs
MG8SBF	8.0	8.0	1/4	4.9	500	Yes	150 lbs
MG12SBF	12.0	12.0	1/3	5.5	550	Yes	152 lbs

*Also available with electronic bottle filler.

MECHANICAL BOTTLE FILLER WITH FRAME ASSEMBLY

Standard Features

- Molded components are infused with FRESHIELD® to help fight degradation caused by the growth of bacteria
- Built-in 100-micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials and construction
- Heavy-duty steel frame
- High-efficiency cooling tank and coil
- Refrigerant R-134a
- Mechanically activated push button
- Filtration system for taste, odor, and chlorine reduction

Model	50° F Drinking Water/90° F Ambient Air Temp		115 Volts, 60HZ			Cabinet Color Option*	Net Wt. Approx
	Rated Capacity GPH	Base Rate GPH	Compr. HP	Full Load Amps	Rated Watts		
MWGSBF	No Chiller					Yes	45 lbs
MWG8SBF	8.0	8.0	1/4	4.9	500	Yes	103 lbs
MWG12SBF	12.0	12.0	1/3	5.5	550	Yes	105 lbs

*Also available with electronic bottle filler.

SURFACE MOUNT MECHANICAL BOTTLE FILLER WITH TRIM BEZEL

Standard Features

- Molded components are infused with FRESHIELD® to help fight degradation caused by the growth of bacteria
- Built-in 100-micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials and construction
- Heavy-duty steel frame
- High-efficiency cooling tank and coil
- Refrigerant R-134a
- Mechanically activated push button
- Filtration system for taste, odor, and chlorine reduction

Model	50° F Drinking Water/90° F Ambient Air Temp		115 Volts, 60HZ			Cabinet Color Option*	Net Wt. Approx
	Rated Capacity GPH	Base Rate GPH	Compr. HP	Full Load Amps	Rated Watts		
MWSMGSBF	No Chiller					Yes	45 lbs

MWSMG12SBF	12.0	12.0	1/5	5.5	550	Yes	105 lbs

*Also available with electronic bottle filler.

FOUNTAINS

There's an OASIS® Versacooler® II drinking fountain model to fit your specific needs, whether you desire refrigerated or non-refrigerated and/or filtered or non-filtered water. Every fountain basin is designed to eliminate splashing and standing water and features a water-saver bubbler to reduce waste water by 50%.

VERSACOOLER® II – ENERGY AND WATER CONSERVATION FOUNTAINS

BARRIER FREE, ADA, SINGLE & BI-LEVEL FOUNTAINS

Standard Features

- Four antimicrobial copper push pads
- Antimicrobial flex bubbler
- ADA-compliant for both adult and child when properly installed
- Built-in 100-micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials and construction
- Flexible one-piece water-saver bubbler
- Stainless steel top and heavy-duty galvanized steel frame
- High-efficiency cooling system
- External stream-height adjustment

Travelmath found the button on a drinking fountain has 1,240 colony-forming units per square inch – far worse than the lock on your bathroom stall. **Only OASIS builds permanent protection into its products.**

ANTIMICROBIAL PROTECTION TWO WAYS

- On metal surfaces, we offer optional antimicrobial copper components to fight germs, bacteria, and the spread of illness.
- For plastic components, FRESHIELD® protects the surfaces from discoloration, odors, and degradation caused by the growth of microorganisms and mildew.

Together, they form a germ-busting dynamic duo to help protect the health and wellness of users of our products.

1

ANTIMICROBIAL COPPER punches holes in the membrane of bacteria at the cellular level, effectively destroying them. The popularity of copper surfaces to replace traditional touch points in hospitals and other critical care industries is a testament to the natural antimicrobial effectiveness of copper!

By choosing fixtures and other touch surfaces made from antimicrobial copper, you can continuously kill pathogenic microbes and provide an additional weapon in the fight against infections.

Antimicrobial Copper top, front nose, and push pads.

2

We manufacture our plastic components with FRESHIELD®, our exclusive silver-based antimicrobial compound. Like copper, the antimicrobial ability of silver has been known for thousands of years. We simply harness nature to make yours a safer hydration experience.

BIODEGRADABLE GREEN FILTRATION SYSTEM

Improve the taste and quality of your drinking, cooking, and beverage-making water. OASIS® provides a superior green filter system that eliminates bad tastes, odors, and sediments, delivering great-tasting water without the hassle or price of other filtration systems or bottled water products.

Use everywhere you want great-tasting, filtered-fresh water: under-sink filtration, coffee machines, refrigerators, drinking fountains, point-of-use water coolers.

OASIS GALAXI FILTER

The Galaxi's unique filter design combines activated carbon with a cellulose-free synthetic fiber matrix. Superior to traditional active carbon filter elements, the Galaxi takes water filtration to the next level.

- Performs as a sediment filter and a carbon block in a single cartridge
- Dramatically improves chlorine taste and odor reduction
- Reduced blocking improves dirt-holding capacity
- Prevents carbon fines from being released into the water stream
- Reduces lead and cysts
- Contains bacteriostatic properties
- Available with phosphate to remove scale for hard water in hot water applications

Order #	Part
036930-001	Kit for PG8AC Series Quarter Turn EZ system
036930-002	Kit for Other Series Quarter Turn EZ system
036930-003	Kit for line filtration
037116-101	Galaxi filter replacement cartridge (for the above system)

OASIS VERSAFILTER® SYSTEM

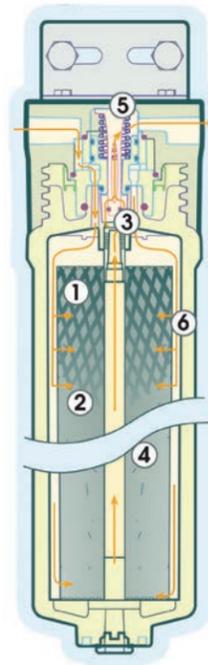

OASIS water coolers, when equipped with the VersaFilter System, provide a flexible water treatment solution that effectively reduces chlorine, odor, lead, and cysts. It improves the taste and appearance of drinking water as well as offering the highest performance in the most user-friendly package available.

OASIS VERSAFILTER

1. Spun polypropylene prefilter wrap extends the life of the filter by protecting the media from premature plugging due to sediment.
2. Unique formulation of powdered carbon plus patented lead-reduction media for high-performance filtration. Compression molded into a tight block for maximum contaminant and cyst reduction.
3. Triple O-ring seal ensures no bypass.
4. Radial flow-through filter design utilizes entire media area for maximum performance and minimal pressure drop.
5. Patented shut-off valve engages automatically as filter is inserted or removed.
6. Self-contained sealed cartridge ensures that hands do not touch filter media, reducing the potential for introducing bacteria.

The OASIS VersaFilter is easily accessible from inside the cooler for fast and easy filter changes. An automatic shut-off inside the filter eliminates the need to locate the water valve. Durable constructed, VersaFilter is designed to last 1,250 gallons or approximately six months.

- Reduces CHLORINE by 97% (ANSI/NSF 42)
- Reduces LEAD between 95.9% and 99% (ANSI/NSF 53)
- Reduces cryptosporidium and giardia CYSTS by 99.99% (ANSI/NSF 53)

Order #	Part
033926-001	Kit for P8AM and P8AC
033926-002	Kit for Other Series
033879-001	Filter cartridge only for replacement

NSF Tested and certified to NSF/ANSI Standard 53 for lead and cyst reduction. Tested and certified to NSF/ANSI Standard 42 for chlorine taste and odor reduction.

Whether you choose direct-plumbed point-of-use or convenient bottle coolers, OASIS® offers options to satisfy every budget and fill every need – as well as every bottle and cup size. Innovative features provide versatility, ease of use, and helpful technology. In modern designs or simple classics, every model is built for reliable daily use.

POINT-OF-USE AQUARIUS COUNTERTOP

NEW

Space-saving and Stylish

- Hot, cold, and room temp from one dispense point
- Polymer cabinet won't rust or scratch countertop
- Night light
- Stainless steel cooling reservoir and hot tank
- Extra high 11" dispense height makes it easy to fill large sport bottles
- Commercial cooling capacity; compressor-driven refrigeration system
- Removable drip tray

Model #: **POU1ACTHSK**

AQUARIUS BOTTLE

NEW

Modern and Easy to Use

- Hot, cold, and room temp from a single dispense point
- Polymer cabinet won't rust or scratch the floor
- Indicator lights for power, heating, and cooling
- Stainless steel cooling reservoir and hot tank
- Extra high 11" dispense height makes it easy to fill large sport bottles
- Commercial cooling capacity; compressor-driven refrigeration system
- Storage cabinet for extra bottle, cups, or other items
- Removable drip tray

Model #: **BAE1SHSK**

AQUARIUS BOTTOM LOAD BOTTLE

NEW

Contemporary and Stylish

- Bottom load, no lifting heavy bottles
- Hot, cold, and room temp from one dispense point
- Polymer cabinet won't rust or scratch the floor
- Indicator lights for power, heating, cooling, and empty bottle
- Stainless steel cooling reservoir and hot tank
- Extra high 11" dispense height makes it easy to fill large sport bottles
- Commercial cooling capacity; compressor-driven refrigeration system
- Removable drip tray

Model #: **BAEB1SHSK**

ULTRA S BOTTLE

Sturdy with Modern Technology

- Pressure vessel direct-chill system combines with a specially designed CO2/water mixer for state-of-the-art chilling and carbonation performance
- Provides 22 x 6-oz. cups of CO2/cold water per hour (4 liters)
- Water carbonation level at 3.2-3.5 volumes, similar to leading bottled brands
- Can accommodate up to a 5-lb CO2 cylinder (not included)
- Features the WaterGuard® 7 with proprietary sealing mechanism; prevents floods caused by leaky bottles
- Electronic controls ensure easy start-up and consistent water flow
- Provides 45 x 6-oz. cups of hot water per hour

Model #: **BU1PVECHS**

POINT-OF-USE MIRAGE

Versatility and Innovative Features

- Tri-temp: hot, cook, and cold
- Stainless steel reservoir and hot tank
- Dual dispense option lets users plumb directly to a water line or use 3-5 gallon water bottles
- Indicator lights for heating and cooling
- Push-button dispensing and easy activation
- Handle on back enables easy transport and placement

Model #: **MIR311D-3**

POINT-OF-USE ARTESIAN

Reliable and Economical

- Available in hot n' cold
- Coated stainless steel panels resist fingerprints and smudges
- Stainless steel reservoir
- Handle on back enables easy transport and placement
- Dual mechanical float system with back-up safety operates even when the power is out
- Stainless steel hot tank

Model #: **PSWSA1SHS**

SUPPORT AFTER THE SALE

Being there for customers after the sale is a hallmark of our service. We value lasting connections and believe in spreading the messages of sustainability, purity, and hydration.

We can help your HR team improve tie-in with health and wellness initiatives and promote broader buy-in to corporate sustainability goals. OASIS can supply you with branded display items, articles, and other internal communications to raise awareness about healthy hydration, choosing water over sugary drinks, and meeting green initiatives.

EMPLOYEE ENGAGEMENT

Employee buy-in is vital to successful corporate sustainability campaigns. Sustainable hydration makes green initiatives more personal. In short, when your employees see that they are directly benefitting from sustainability, they will be more likely to support it.

BREAK ROOM DISPLAYS

OASIS can supply you with branded display items for break rooms to raise awareness about water-related topics.

Bottle counter shows how many times unit has provided healthy hydration.

Filter Status

Filter monitor indicates when it is time to change the filter.

ALWAYS KNOW WHEN YOUR FILTER NEEDS CHANGING

Our "smart" water products can let everyone know when a water filter has reached the end of its service life. When everyone knows the status of the filter, filter-change protocols are more steadfastly adhered to.

READY-MADE ARTICLES

Because consistent communication to employees is so important, we've created a ready library of articles for your use. Feature them on your company intranet, in newsletters, emails, and on other employee-facing communications.

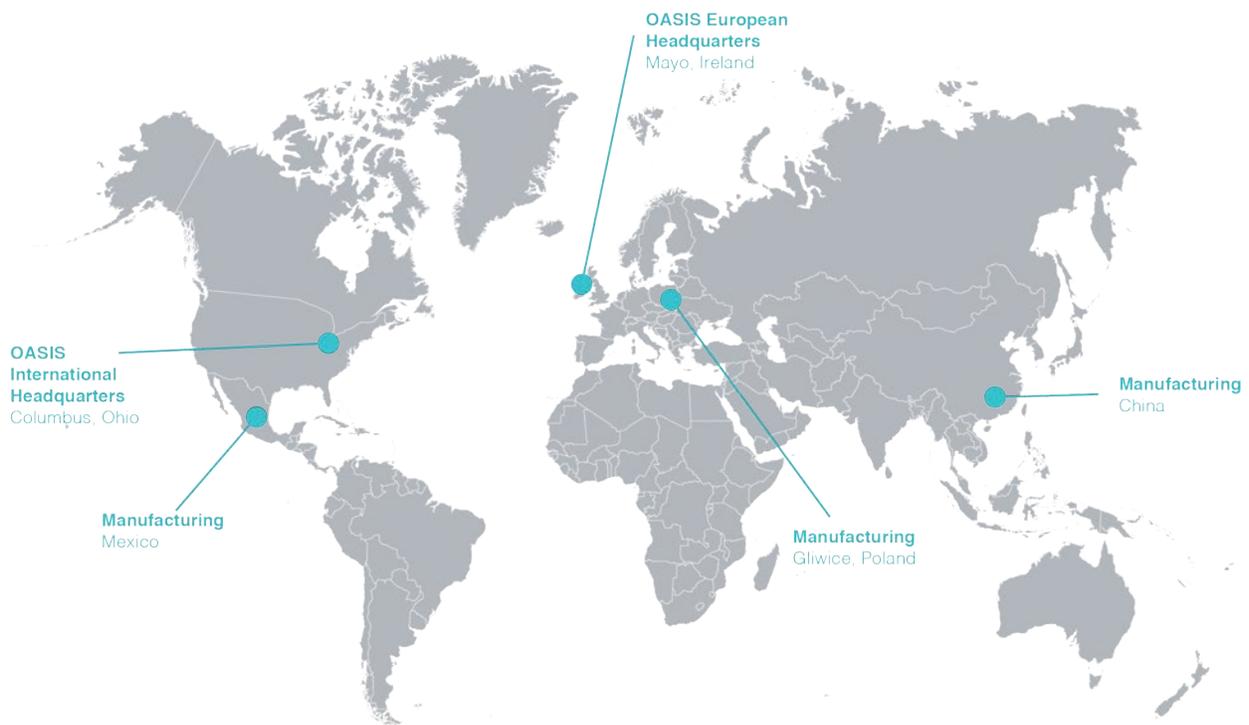

OASIS INTERNATIONAL
